

# Earth

Mackenzie Pond

Thurs. April 8, 2010

- I think people need to respect the environment more. Soon a lot of animals will be extinct. The ice at the arctic is melting.
  - A lot of people litter and it is hurting our mother nature. Some cities could flood. If people keep littering our air will get dirtier and dirtier.
  - If we are not watching TV and it is turned on you don't turn it off, you unplug it. Even though the TV is off it still uses energy.
  - Did you know cars use more energy than a bus? Even though a bus is bigger because if everybody took the bus not so many cars would be on the road.
  - I think one day everybody should turn everything off and light candles. you can find some fun things to do. (at no energy incuded)
- Please help save our planet.
